

School Board Goals: 2008-09

The School Board will continue to communicate to the public the mechanisms and challenges of funding and declining enrollment.

The School Board will continue to negotiate contracts that are consistent with the District's financial constraints.

The School Board will continue to evaluate the long-term facility plan.

The School Board will maintain efforts to improve relationships with community leaders, organizations, civic groups and governmental groups.

The School Board will endeavor to practice excellence in governance under the guidelines of policy governance.

The School Board will strive to provide the best educational opportunities for all learners within a framework of fiscal responsibility.

The School Board will strive to provide a broad range of effective, relevant programs that set high expectations and inspire outstanding achievement.
